

**Student: EJ**  
**Fall Semester 2014/15**  
**Semester 65**

“Sci High” as my semester called OSCSS, was one of the best educational experiences I have ever had the privilege to participate in. Despite the fact that the program itself was engaging and interesting (always giving students new challenges and opportunities), the teachers were incomparable and I learned more here than I did in all three other years of high school combined, my favourite part of this entire experience were the people that I met. It was a truly illuminating to meet such a diverse group of people my age all with a common interest and the classmates that I met at OSC have stayed my closest friends to date. I recommend this program for any student who is looking for an eye-opening, unique, teaching and overall brilliant experience; OSCSS was the best adventure of my high school career.
