

PLAY **Boost Your Science Vocabulary** CRANIUM QS

TOOLS

What you'll need:

- Pens
- Scissors
- Scrap paper (reuse!)
- A headband or bandana for each player

Game setup:

1. Cut paper into rectangles
2. Write one "clue card" word from the list below on each rectangle (leave enough blank space below the word to tuck the card into the headband)
3. Optional: Print the clue cards on page 2

How to play:

1. Get each player to put on their headband across their forehead
2. Put a clue card in your headband so the other player(s) can see the word (do not peek)
3. Ask the players as many yes/no questions as required to guess what your secret science word is! (Tip: Start with big questions like "Am I on Earth?" or "Am I a living thing?" or "Am I made of rock?")
4. Take turns trying out clue cards

**With this game,
there is no scorekeeping.
Everybody wins!**
